DETAILED ACTION

The following is a first action on the merits of application serial no. 10/534,841 filed on May 13, 2005.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement filed on May 13, 2005 and March 6, 2006 has been considered.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the illustration of figures are unclear, the lead lines representing characters are unclear and the figures should be numbered in consecutive order. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3681

Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claims 1 and 19, the addition of the word "type" to an otherwise definite expression extends the scope of the expression so as to render it indefinite, MPEP 2173.05(b).

As to claims 1 and 10, it is unclear as to if the phrase "eM Dean" Gear is a limitation and what the phrase represents (i.e., trademark phrase, type of gearing, etc.).

If it is a limitation, there is insufficient antecedent basis for this limitation in the claim.

Regarding claims 12-15, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

As to claim 23, it is unclear as to if the phrase "Torque Multiplier" action is a limitation and what the phrase represents. If it is a limitation, there is insufficient antecedent basis for this limitation in the claim.

Regarding claims 24, 26 and 27, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

As to claim 27, it is unclear as to if the phrase "Camber Control with Caster" is a limitation and what the phrase represents, the disclosure of the Figures in the claim is also indefinite and should be deleted.

Claims 29 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

Allowable Subject Matter

Claims 1-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

-Hertzberg (1,154,769), Beim (5,503,605), Brown et al (5,484,348), Grudin (3,008,355) and Hasbany (2,478,868).
